REMARKS

This Application claims priority benefit to EP 02 02 7942.8 filed with the EPO 13/12/2002. The U. S. filing was in French and included an English translation, which was not in compliance with Patent Office Rules.

Thereafter, and in response to a Notice to File Corrected Application Papers, dated August 21, 2007, Applicant's Attorney submitted the following: (a) Replacement drawings, (b) a "marked up copy" of a Substitute Specification, and (c) a "clean copy" of the Substitute Specification. The Specification, Claims and Abstract started on separate sheets.

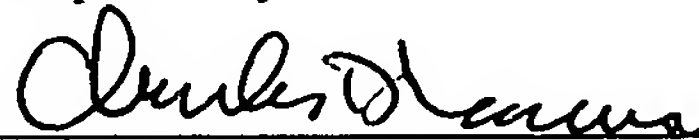

This Paper does not make any changes to the Specification but revises the drawings. Attached herewith are two (2) sheets of Replacement Drawings (FIGS. 1 and 2)

Originally filed Claims 1 – 6 are amended herein to remove indefinite language and improve the clarity of the invention claimed. Originally filed Claim 6 was in improper form. By this Amendment, Claim 6 is amended to depend from Claim 4 and a new Claim 7, including the limitations of Claim 6, depends from original Claim 5.

No claims are cancelled.

Accordingly, claims 1 – 7 are pending in this application.

Respectfully submitted,
